THAT'S NOT THE RIGHT
ANSWER!
WHY DID YOU INTERFERE ON THE
HARBOR? WHAT DO YOU KNOW
ABOUT THE ANDOROZON
TECHNOLOGY? ANSWER ME!

ART & STORY BY SHAWN TAE HOWARD / EDITED BY RON DUNCAN
COVER BY: TRUMP / ANDOROZONS CREATED BY KEN SINGSHOW

Honestly, Pandora, you've been at this for hours.

Zora De Facto.
Leader of the E.C.S
Organization.

I don't think she knows anything.

Admittedly, it was fun at first with the whips and all, but now it's just passé.

Bender. You know how obsessive-compulsive you can get.

She humiliated me.

Chekari and his toy robots beat me to the squirrel, all because of this tail-lifter!

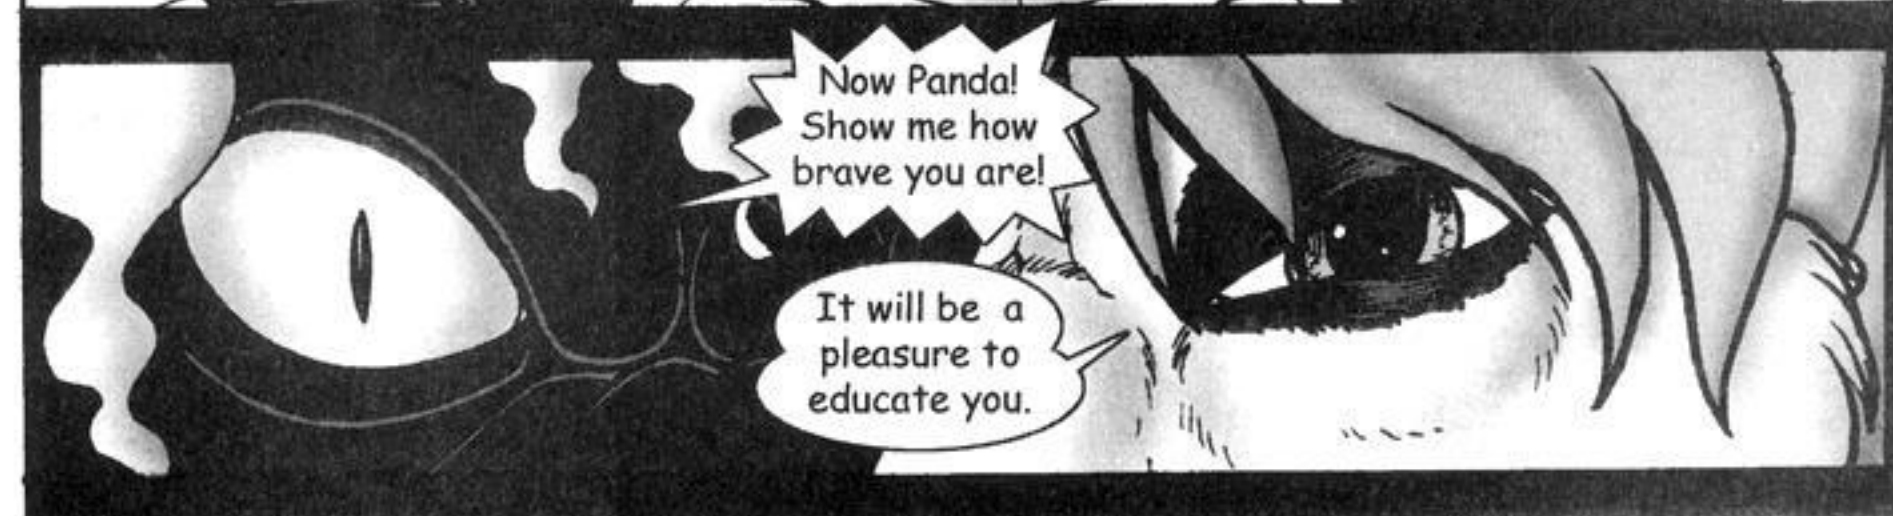

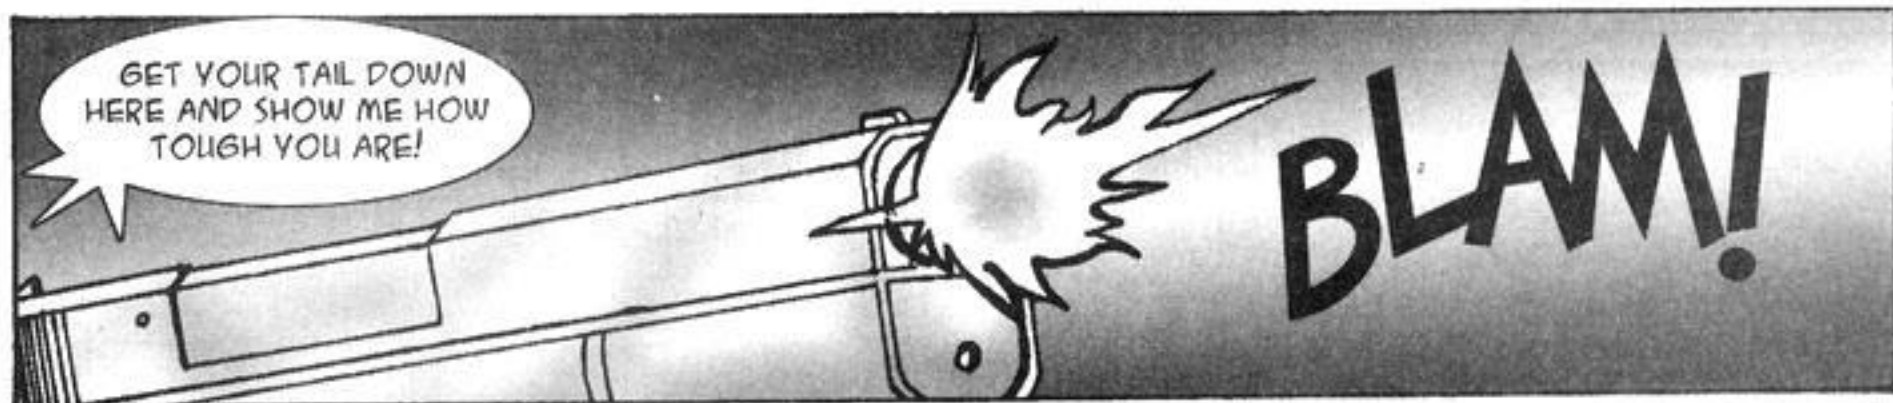

Brave words for a coward. You wouldn't be so tough if I were free.

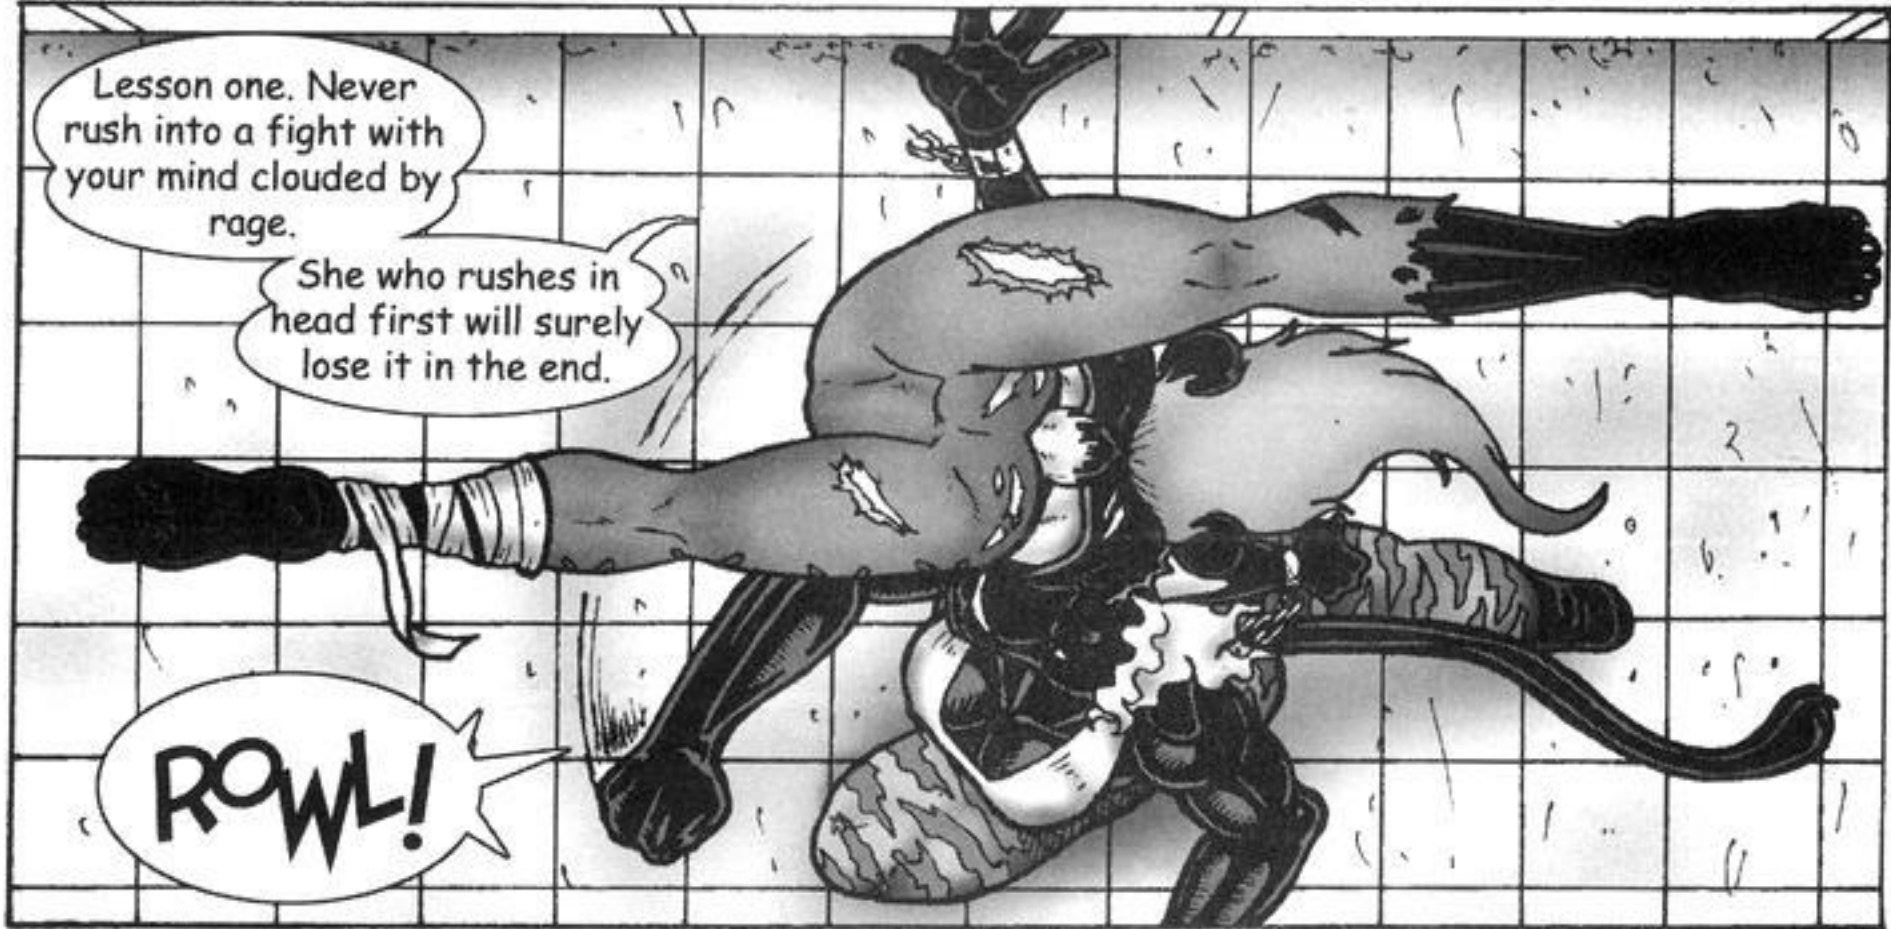

COWARD?!?
I'll rip out your heart for that!

What on Alden do you think you're doing?

I haven't begun to punish her!

GRRR. Don't you DARE raise your voice to me, SISTER!

Lesson one. Never rush into a fight with your mind clouded by rage.

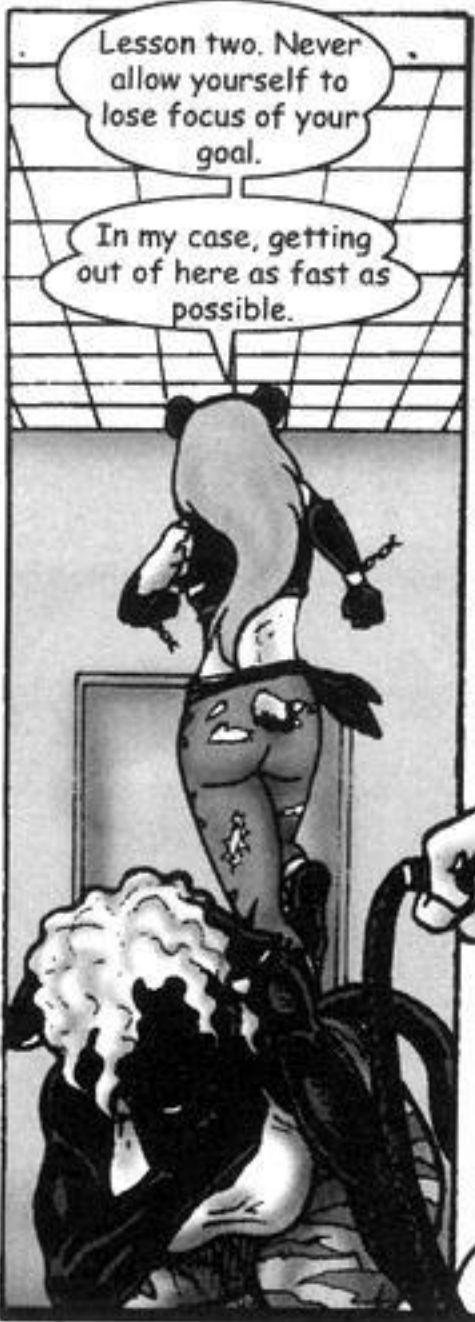

She who rushes in head first will surely lose it in the end.

ROWL!

Or in your case, get it kicked off! HAI!

ERRCK!

Lesson two. Never allow yourself to lose focus of your goal.

In my case, getting out of here as fast as possible.

Pandora you idiot! She's getting away.

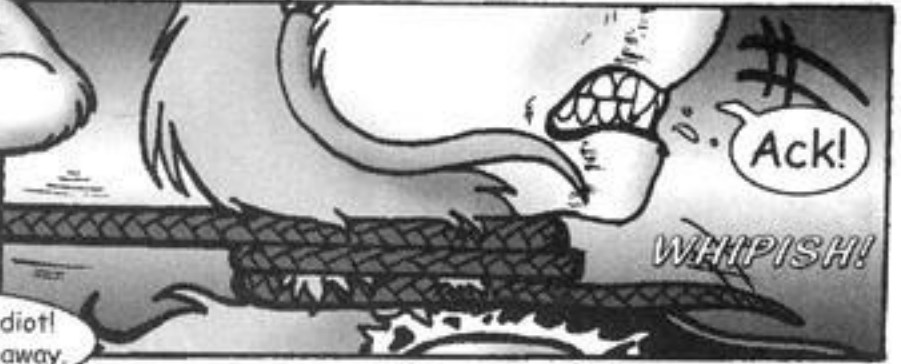

You let your pride get the better of you AGAIN!

I'm surrounded by fools!

I'm out of-- AAH!

Zora I got news from the-- OOH!

Ack!

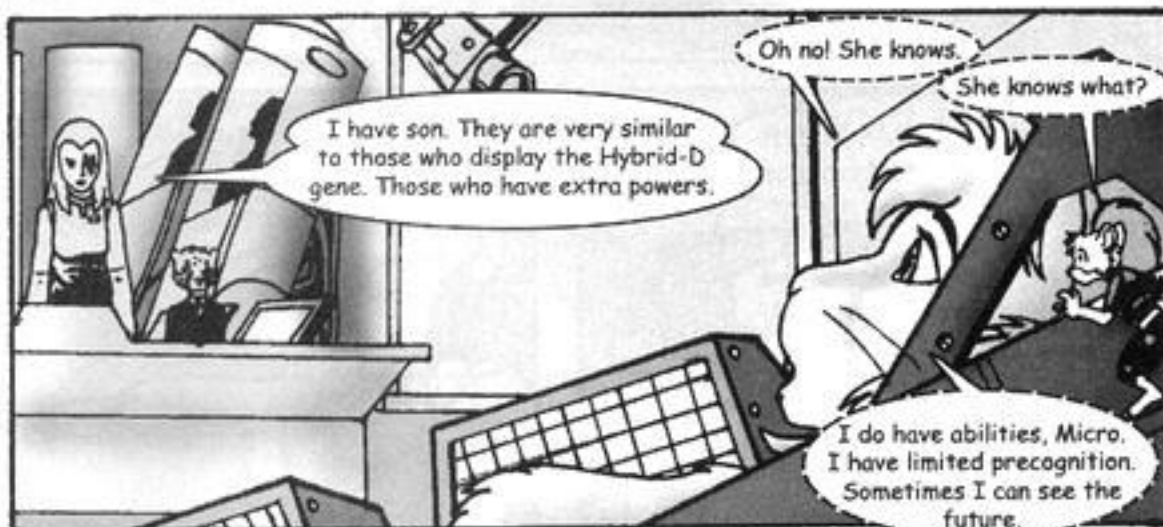

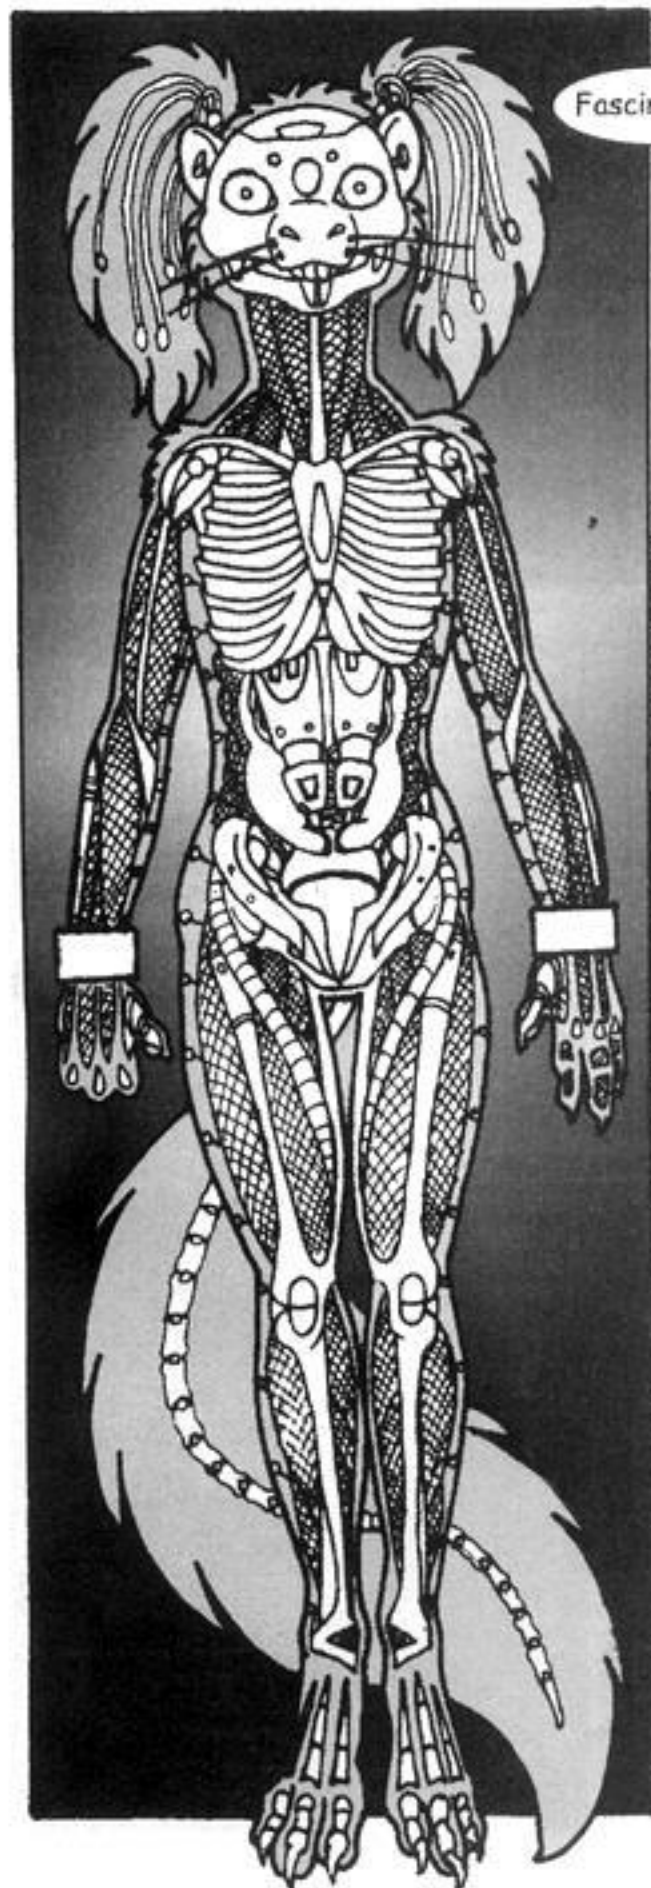

WHIPISH!

Oh, you're not going anywhere my pretty little panda. I'm not done playing with you yet. Tonya?

The World Leaders have refused your demands. The smaller nations almost agreed until the U.S. and Ursidania interfered. They've called you a lunatic.

Growl! And Napaj's leader?

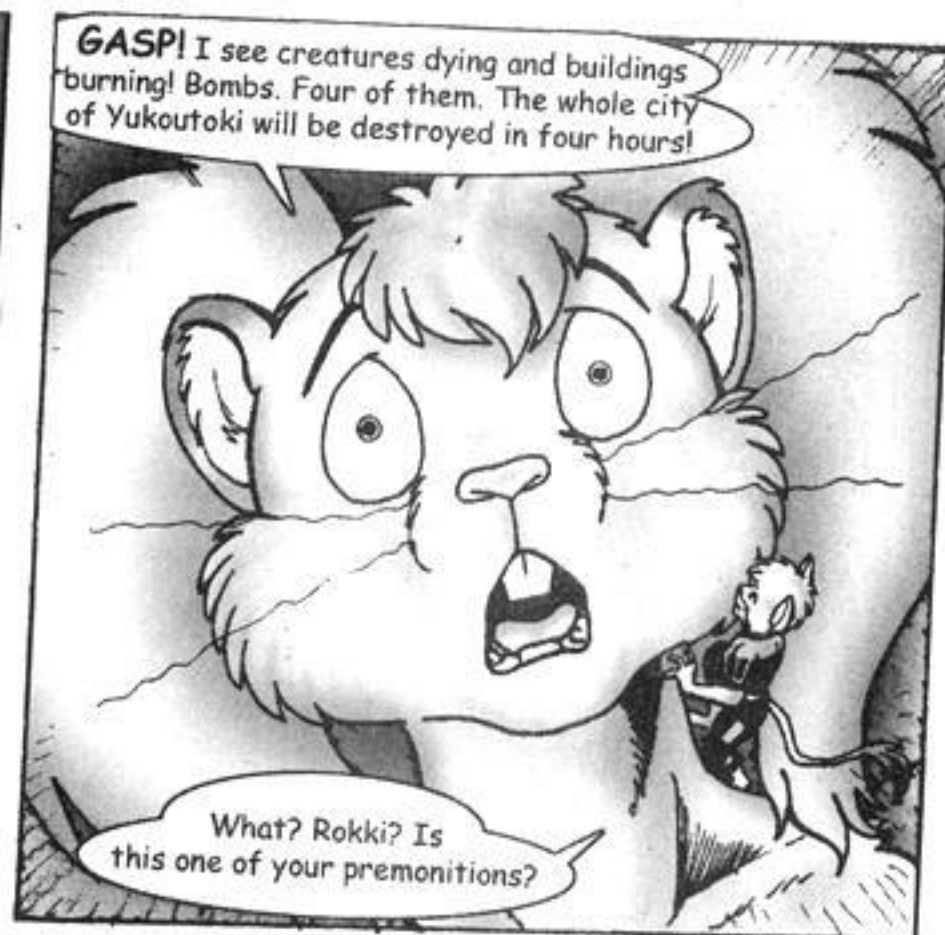

So you can see the future?

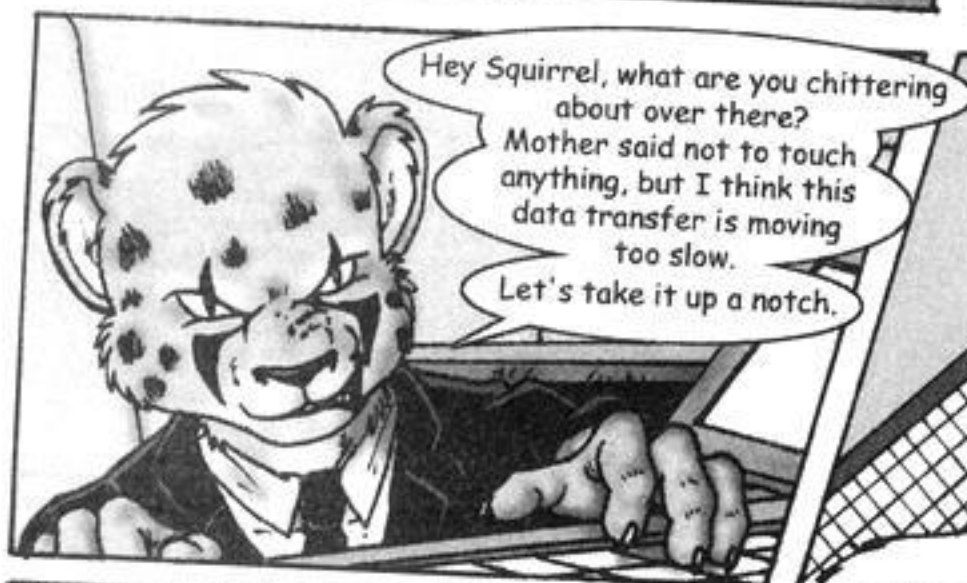

Sort of. I don't know how, but I get flashes sometimes. These maniacs can't be allowed to copy that.

I'll get you out of here!

GASP! I see creatures dying and buildings burning! Bombs. Four of them. The whole city of Yukoutoki will be destroyed in four hours!

What? Rokki? Is this one of your premonitions?

Hey Squirrel, what are you chittering about over there? Mother said not to touch anything, but I think this data transfer is moving too slow. Let's take it up a notch.

Micro, you must hide! He'll find you and... **AAARGH!**

Rokki? Data jump-jacks inserting into the back of her neck!

Yeah, that's more like it! The transfer is fifty-percent complete.

Sure, you may not survive the increased download speed, but who cares? Mother won't need you anymore once we have the data anyway and we can use your body for spare parts.

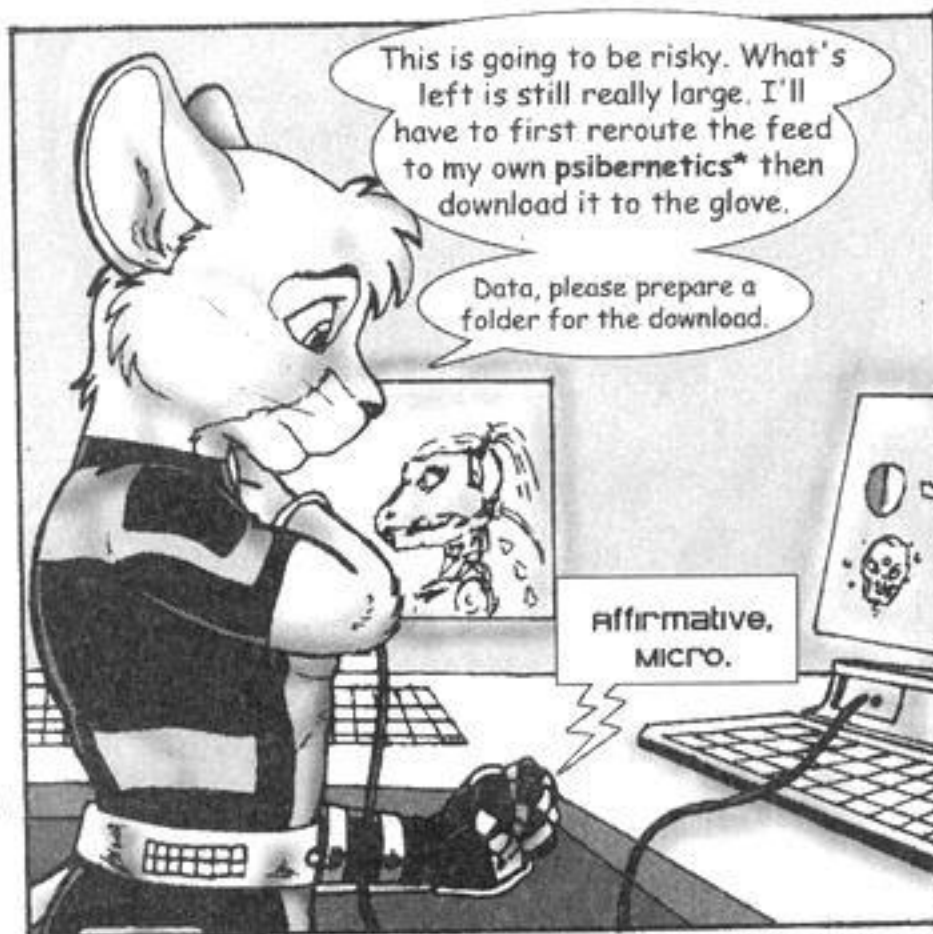

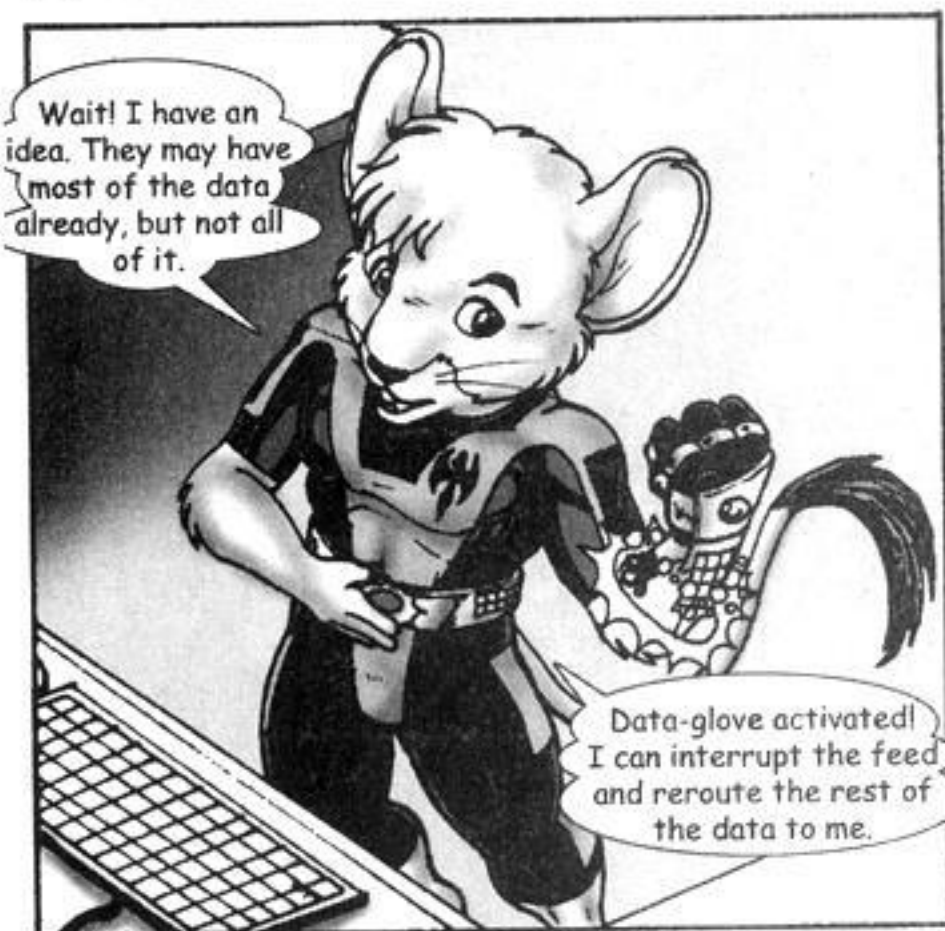

MMPH! They're locked in! I can't pull them out!

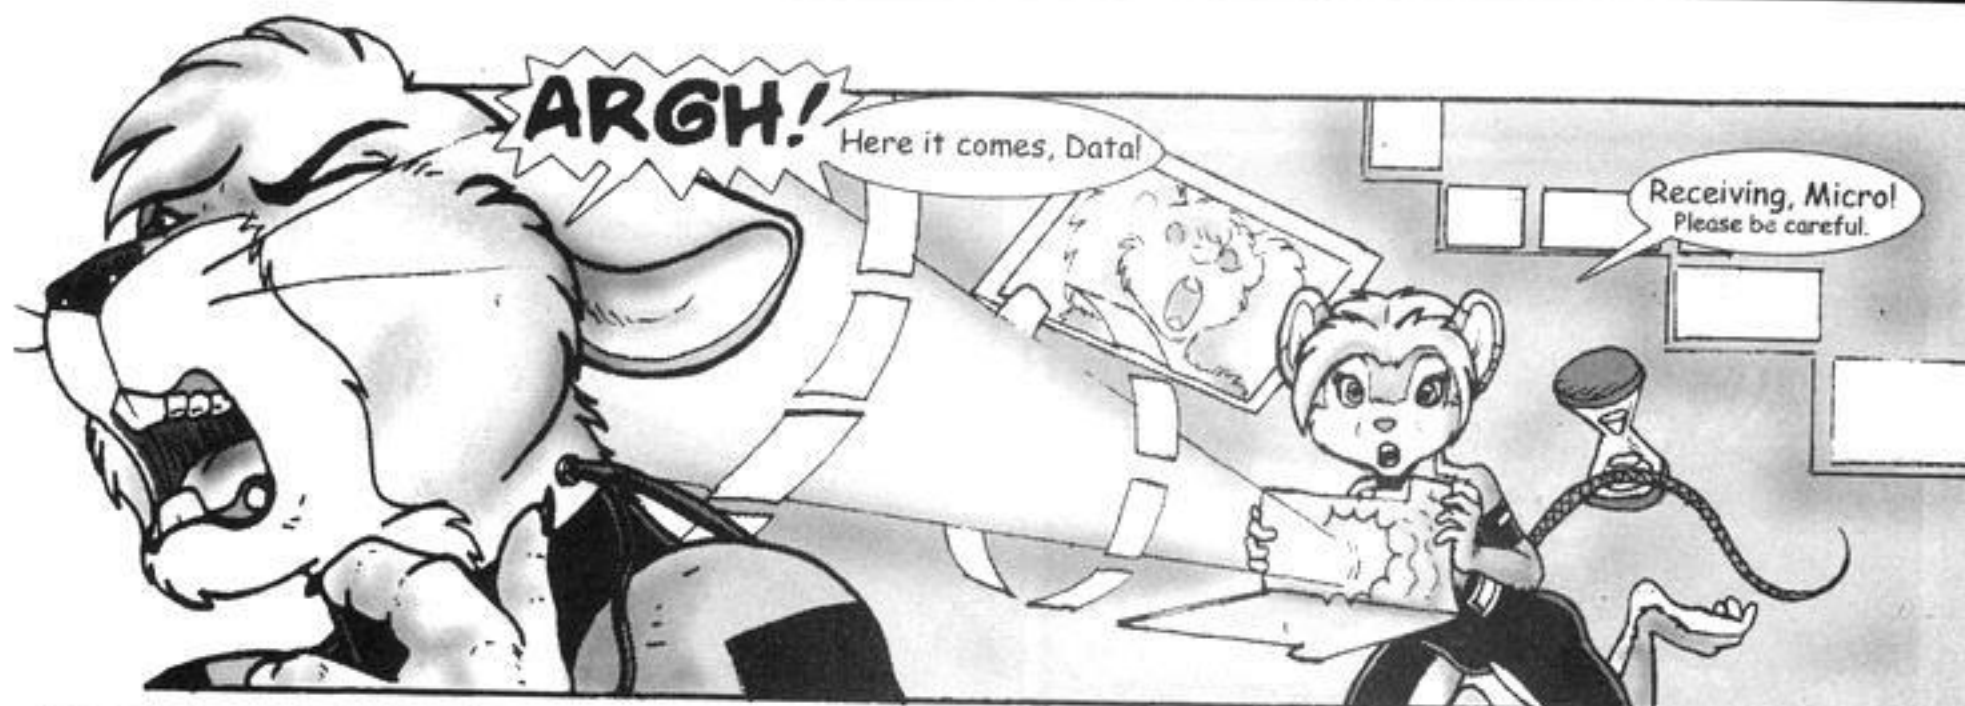

AAAAH! Micro, run! He'll find you! **AHH!** He'll hurt you!

Who the devil are you talking to? I want to hear your screams, not your ramblings. You're completely taking the fun out of torturing you. *<Sniff, sniff>*. Hey! Why do I get two scents from you? You're hiding something!

* Cybernetic Brain Implants

I will not let you ruin twenty years of research and planning! Not now when I'm finally so close.

Now get your tail back on that table!

Time is running out and I will not fail my mission before they..WHAT?!

CHING!
CHING!

You are right soft one. You're time is up.

Is that not right, Akera, my brother?

Indeed, Akera, my sister.

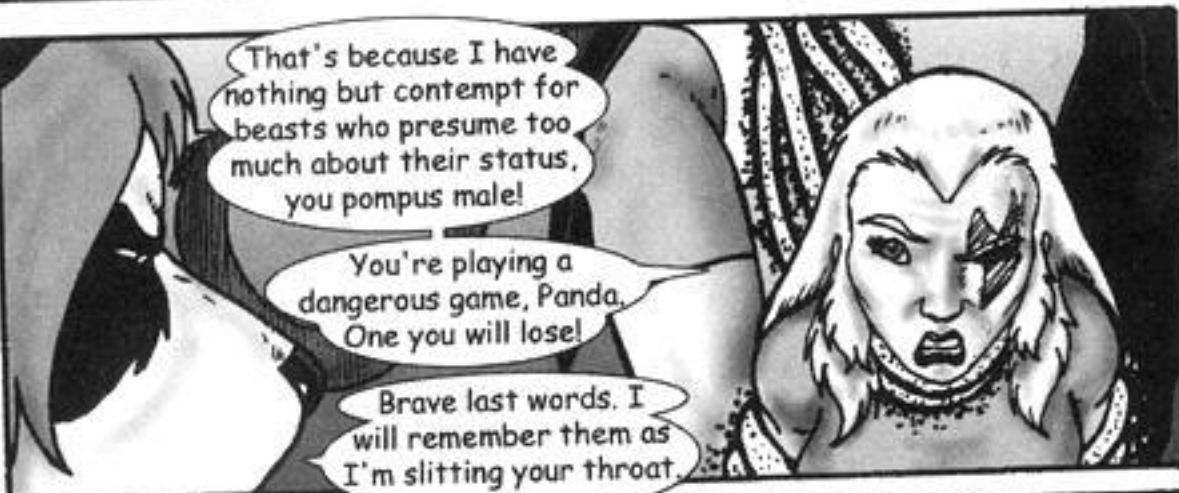

First, you go back on our agreement to gain access to the Andorozon technology by subterfuge rather than by force.

Then you destroy my father's science building, Napaj's leader in biocybernetic research.

Finally, you ignore my inquiry and insult me. With contempt you called me a "beast".

Takemitsul

That's because I have nothing but contempt for beasts who presume too much about their status, you pompus male!

You're playing a dangerous game, Panda. One you will lose!

Brave last words. I will remember them as I'm slitting your throat.

M..Micro! What are we going to do? I'm..I'm so frightened I can't move. I've never been afraid like this before!

It's because your mind is coping with not having the data slow down your emotional repsonses. But don't worry, I have a plan. Data, convert power to output.

Excecute electro-static pulse wave!

Oooh. Micro you're so smart and brave. That's so attractive in a male. I'm SO appreciative. Mmmm.

Uh, Data has done a security check of the facility and says our friends are also being held here.

Ah hhm. I..think we oughta get going and find them. Oh gosh.

Meanwhile...

It's no use, Karabiner-san.

Do not feel badly, Stinken. These terrorist knew just what they were doing.

I can't remove the muzzle. My claws are not sharp enough and I am not strong enough. I feel so useless to you.

I fear our usefulness to them is drawing to an end, now that they know we do not have the knowledge they seek.

I'm afraid, my friend, we are about to find out.

Get in there, Panda!

No! It can't be. Pandora-chan? Pandora Lee?

SSStinken. uugh, I've found you.

Oh my dear friend! What have these monsters done to you?

When I heard what happened to your family, I thought you...

I got better. Give me a minute and I'll show you.

Thank goodness my "Aura Shield" protects me from impacts like that.

UMF! The weight is shifting! Phenix!

I'm trying. Used up most of my telekinesis deflecting the blast.

Umnus?

MMPH! Ha! There you are!

Scarlet! Thank the Maker! Help us out of here!

I'm gonna have to learn how that works someday.

Head spinning. Can't focus radar to jump.

Are you guys okay? What happened?

Ambushed by a Beta Hunter, but worry about that later. I can't hold this up all day.

Topside...

It's been about ten minutes since the flying vixen took a nose dive into the ruins of Sei Ryu Labs.

I stand here with her companion...

Sachi, who arrived here with her. Ms. Sachi, can you shed some light on what's going on for our viewers?

Sachi.

I ain't got no idea what's goin' on. I should be at work.

**CREATURES OF NAPAM
HEAR ME!**

By the MAKER! That went off in the downtown shopping district!

HELLO? HELLO?
COME ON! SOMEONE OUT!
THERE'S GOTTA BE SOMEONE!

Mirco? Report!
Where are you?

Are you okay?
Is Pandora with you?

NO SHE'S NOT, BUT I'M ON
ROUTE TO HER NOW. I'M NOT
EXACTLY SURE WHERE I
AM.

Your comlink has a
homing device in
it. Activate it and
we'll send someone
after you.

Affirmative. We've also got
a big problem. There are still
humans on Alden and they're
trying to create artificial
hybrids. That's why they
kidnapped the Professor
and my friend here.

Even worse, I think
there are more on
their way.

Micro, can we go?

I'll find out what I
can. Micro out. Let's go.

His homing beckon is transmitting. He's in the ocean?

The Porpian Ocean. That's
due East, where those
missiles came from.

Humans! Fuzz, shoulda
known those alien
creeps would still be around
after we destroyed that
slave camp.

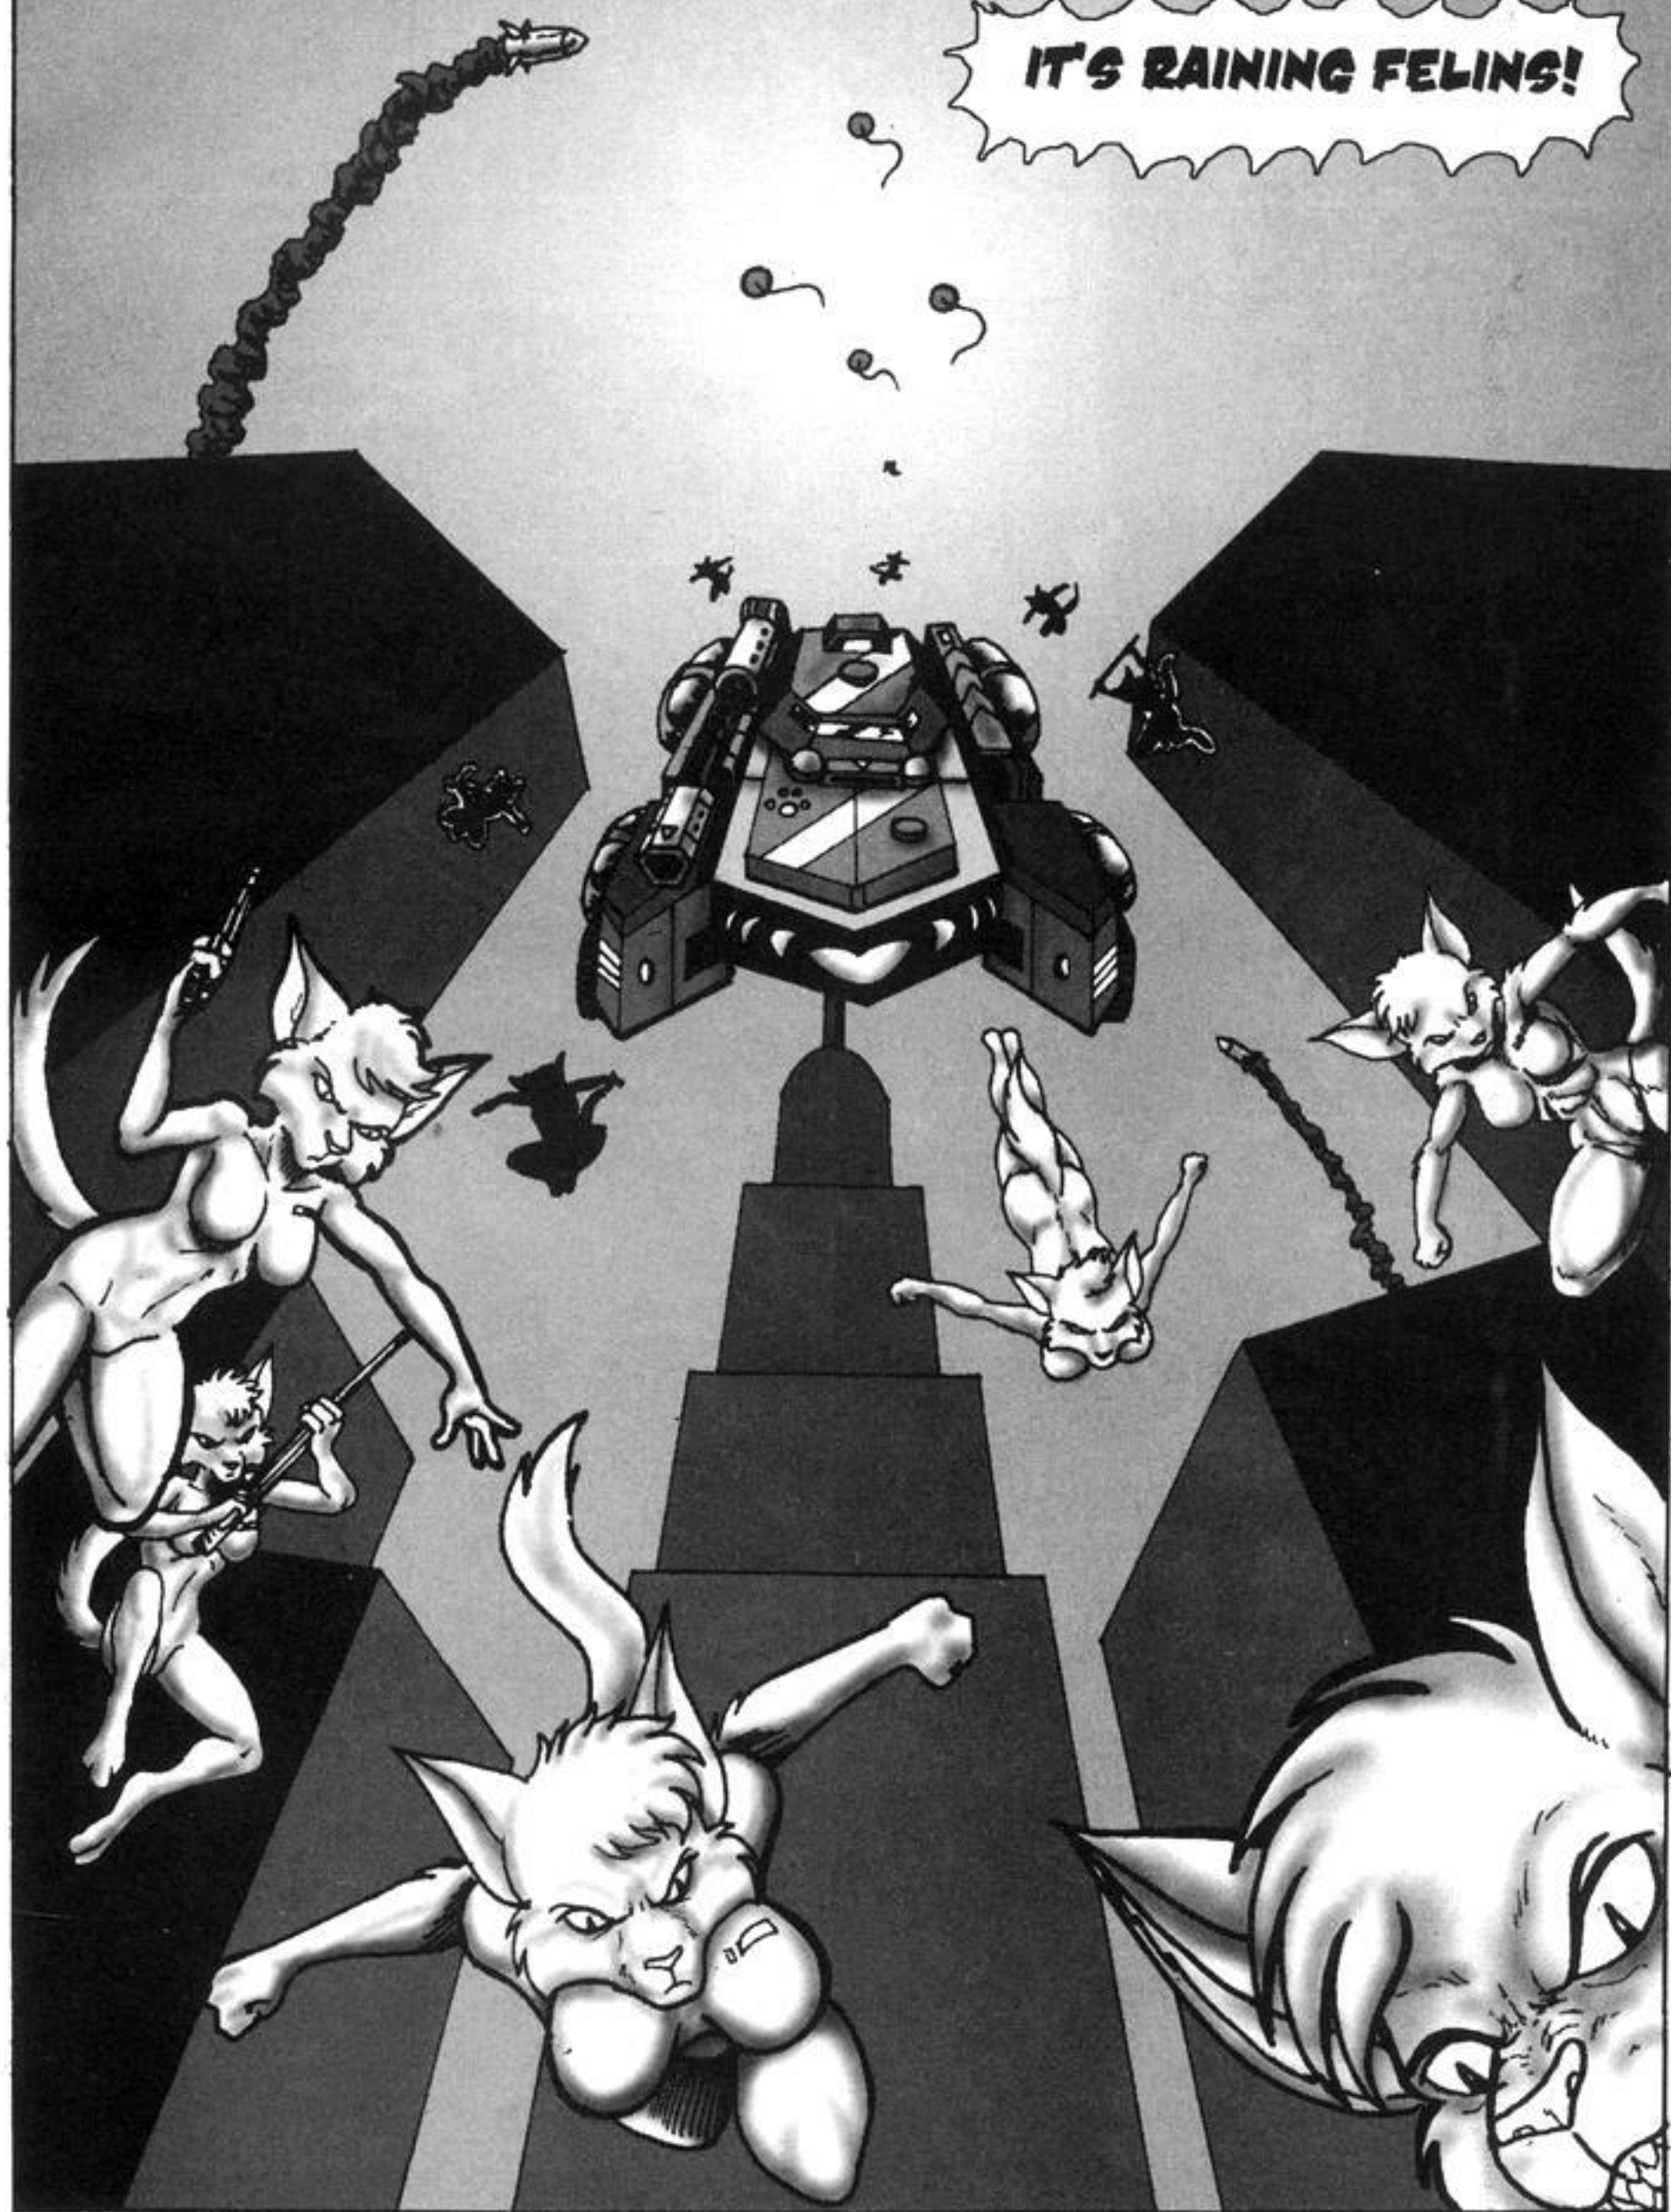

Hey, what's going on?
I don't understand. What's
the deal with that robot
and what's a human?

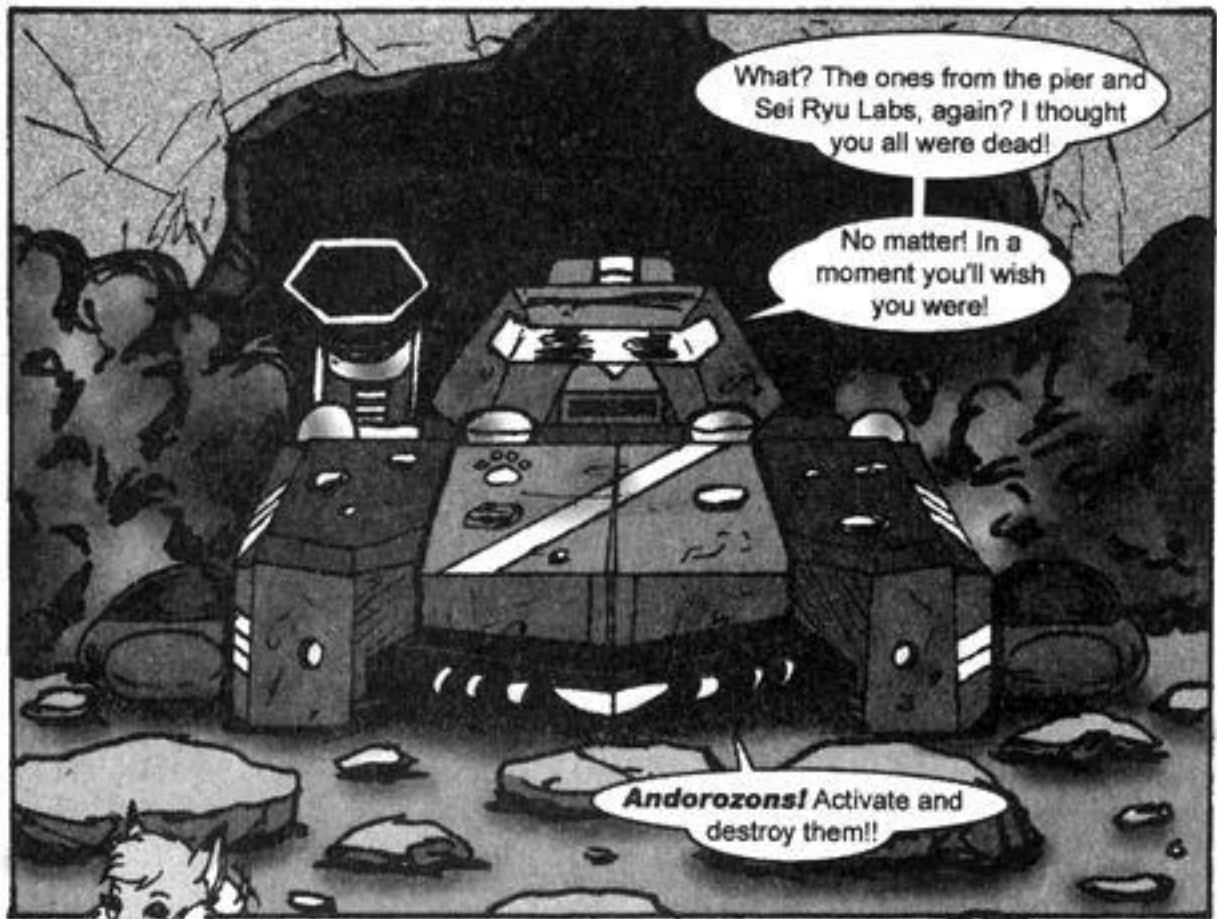

Oh my GOSHI! Look! Up
there in the sky! Are
you getting this, Kame?

Yeah, and I still don't
believe it.

IT'S RAINING FELINS!

AAHH!

Look out you big idiot!

I thought you said these were your friends?

What are we up against here?

Gol Kill them all. Let nothing stand in your way!

The Mephit is Sue-Chan. She's a bio-chemical expert and can manufacture and release any type of chemical she wants. Electrical stuff seems to go crazy around her too.

And the husky bitch is Merry. She's the leader and is super strong with crazy luck.

The Canin vixen is Tsuneko. She's a weapons specialist with a deadly aim.

Above, a watchful eye follows events.

MISTRESS ZORA, ULTRA COMMANDER PANDORA HAS COMMENCED THE ATTACK. ALL IS GOING WELL, BUT SHE HAS RUN INTO MINOR RESISTANCE. NYUA.

Excellent. Nothing I'm sure she can't handle. Things are going well.

Mother will be proud. When I burn this city to the ground and bring this world to its knees, she won't have to worry anymore about her superiors punishing her for failing her mission.

I will prove that I'M her most perfect creation and not that little mewling brat!

She'll rule along side Mahn and I'll be Queen over all the humanimals!

HA!
HA!
HA!

HA!

HA!

HA!

Meanwhile...

ROWWW

WWWLL!

No! Get back!
Stay away! AAH!

SNARL!

Mother! Are you
alright?

I'm fine, Chekari.
You let T'Chatta out?

Yes. I...had to
release father to
save you.

GRR! My cybernetics
are damaged because
of you!

I will finish
what we started!

I'll...*GACK!*

Do nothing beast! How
dare you raise a hand to
one of your masters!

What's going on here?
This cat is different from
the ones I remember.
What's going on here,
Doctor?

GGSK!

Oh my God!
You're awake!

Yes, what's going on here,
Hilda?

Yes! He's fine and
poses no threat!
I'm so glad to see
you awake again,
Noah.

Why are these
humanimals attacking
you? Is that one
safe?

Mother!

Hush!

Awake? What happened?
Are our plans still in order?
Are the humanimals ready
for the others' arrival?

We're a little behind
schedule, my dear Noah,
but rest assured your
plan is still intact. We
will not fail.

But the humanimals,
they are much
different than the
ones we brought. Will
they be usable when
the ships arrive?

Oh yes, I have a
special agent
preparing some
for our usage
as we speak.

In the prison...

What are you waiting for cat! Afraid to pull the trigger?

ROOM. CHANGING PRIMARY TARGET TO SECONDARY THREAT. EXECUTING ORDERS IMMEDIATELY!

Karabiner! What are you doing? Pandora-chan?

He's giving me enough time to do this! Starblade form!

HIYA!

*

I hate robots!

Pandora!

How did you do that? Your wounds! Healed! How are you alive? Where have you been?

Ken-san, please! One question at a time. You know all female Alluresens are trained in the way of self-defense when we are cubs. My use of the sword shouldn't be a surprise.

But your wounds! You were barely alive!

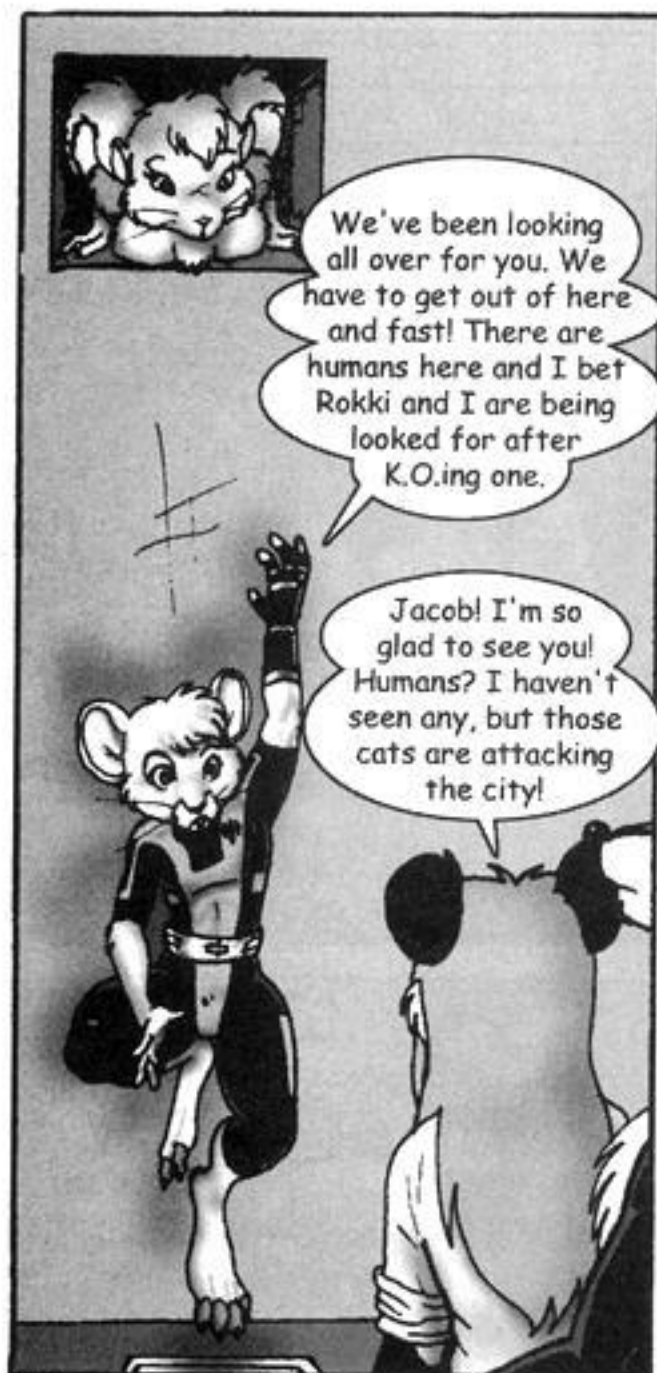

I'm...I'm a Hybrid Ken-chan. I have the power to heal myself and others.

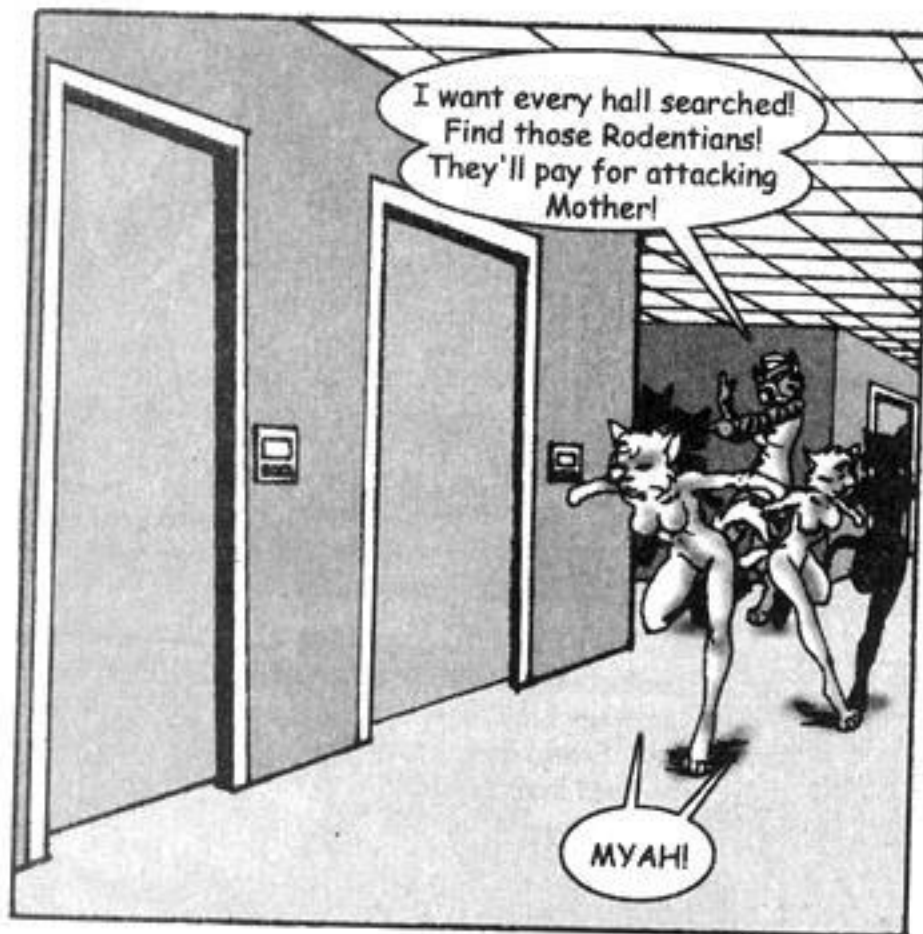

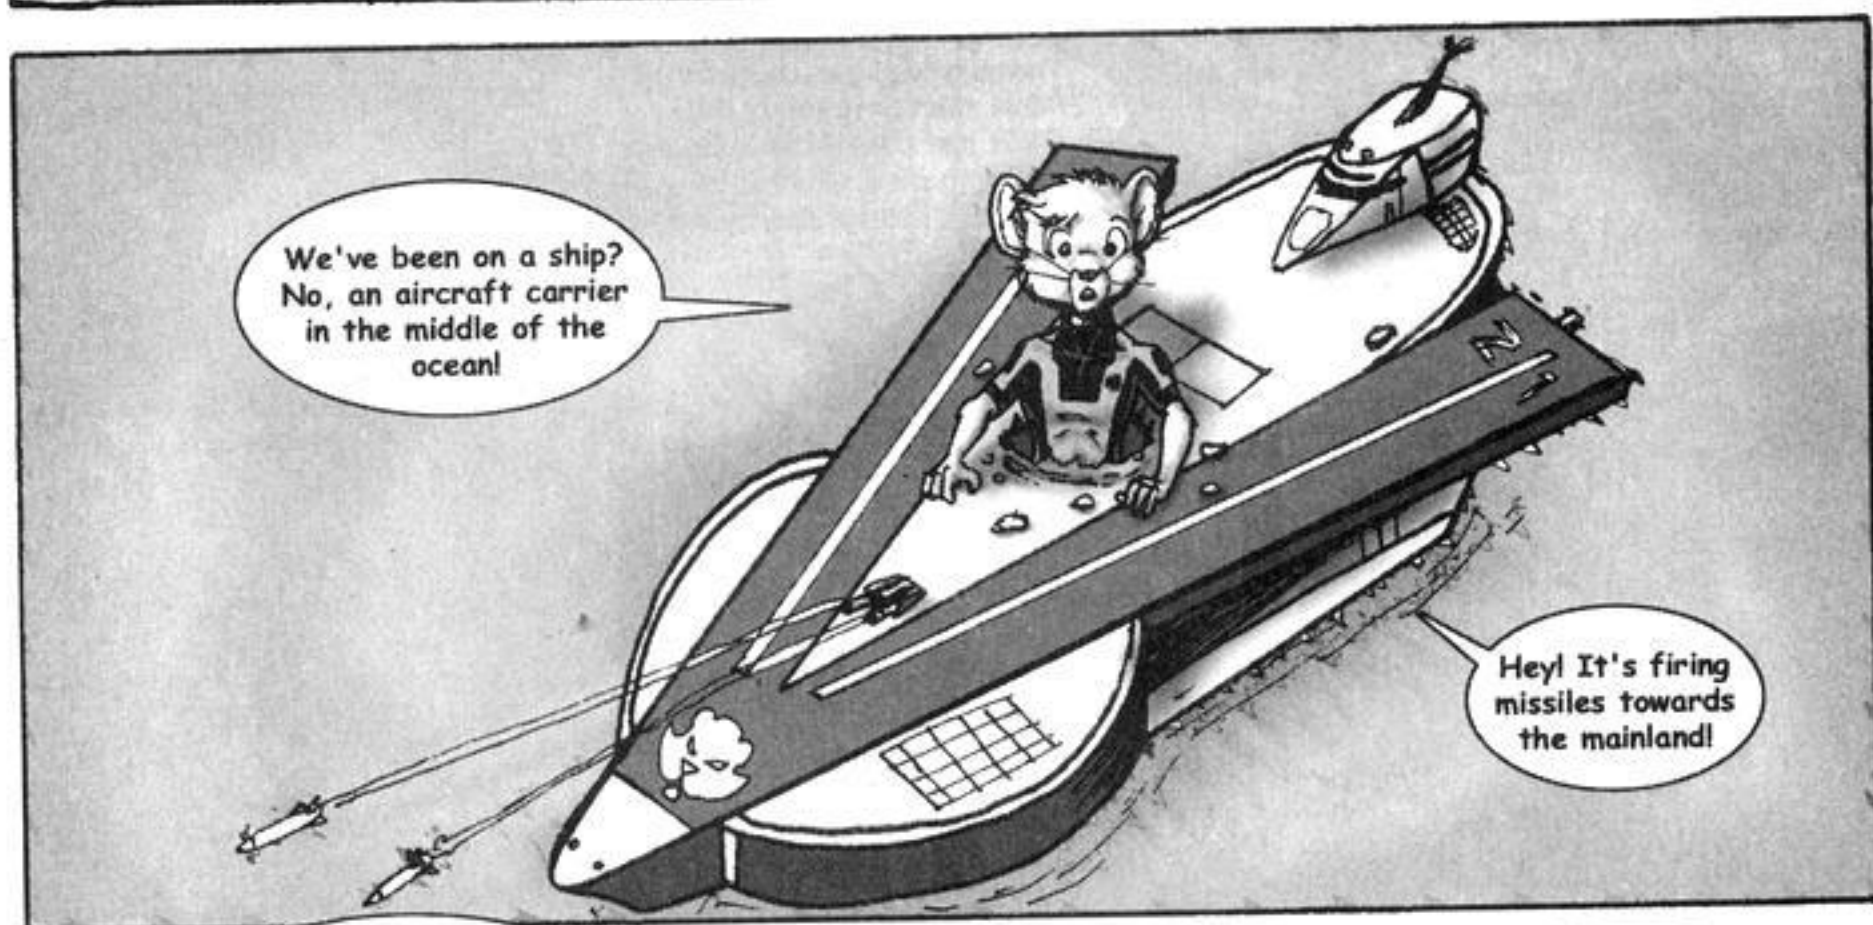

CLANG!

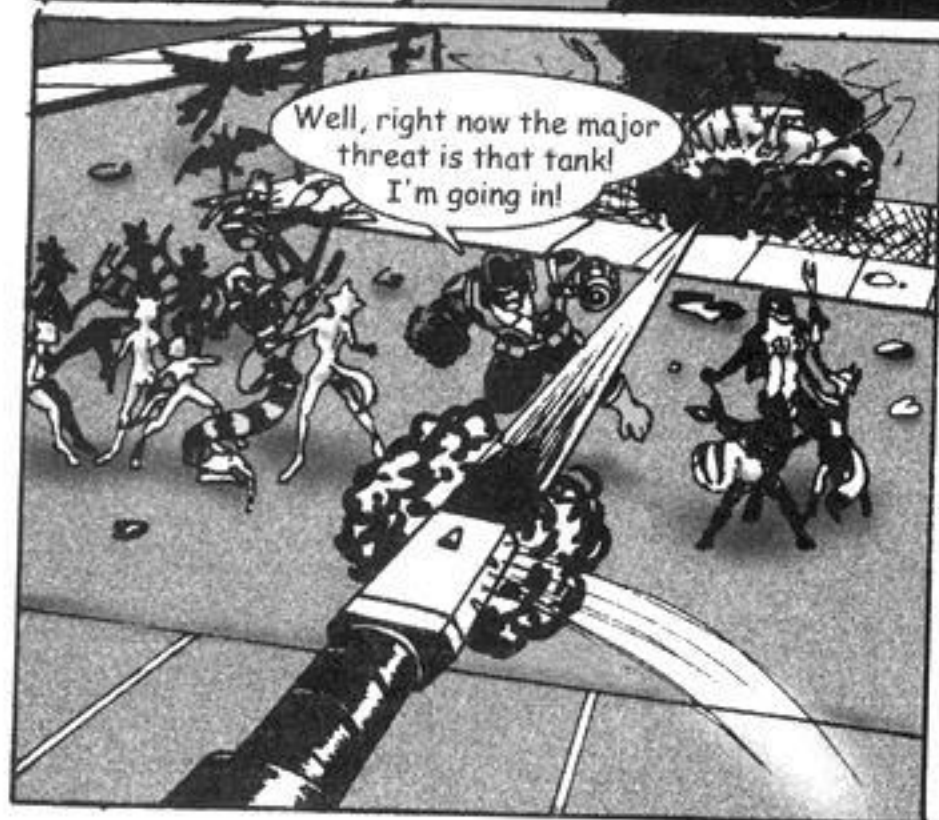

That's why I was kidnapped, because I had a power I didn't even know about. It cost me my family and almost my friends.

Finally! We found them!

He's on the tank!
Shoot him!
Shoot him!

RRRARGH!
Come out here
NOW!

Maker! What
manner of beast are
you?

It's over, Panther! Who
put you up to this? Lie to
me and I'll do to you what
I did to this tank!

AARGHI!

Applying Knock-out
gas and electro-
magnetic disruption.

Good job, Skunk. That
obedience chip is
working excellently.

Be a good girl
and keep him
busy.

Cat soliders, regroup and focus
your attack on these strangers!
They're not ordinary humanimals!

Andorozone, double your
efforts. I want them dead
do you hear me? DEAD!

Sachi unleashes a high-frequency whale, which varies in pitch and range, in an attempt to disrupt the one that is controlling her friends. She has effective results.

Hey cat! That was a real bad thing you made us do. You're so going to get a newspaper to the nose for that!

Yeah, way to tell her, Merry.

Get ready fo' a smack dOWN.

Pandora you fool!
Victory was ours
and you blundered
it!

But Zora, those
strangers! They
have powers!

But NOTHING! Bottom line is you
failed. At least I can take comfort
knowing the bombs will incinerate this
city and we can move on to the next.

Incoming transmission from
Mistress Burden.

Zora, call off your
attack and return to
base immediately.
My plans have changed.
Burden OUT!

Wha, but Mother!

ROAR! Why? Why does
she do this! All I want
to do is please her, yet
every opportunity I
get..!

Zora!

What?
GASPI

MOUSE.

HIYEE! Just wanted to say thanks
for letting us know about those bombs.

It took a couple of
minutes to teleport
to them all and disarm
them, but it's all good
now.

So thanks for
playing. Bye-bye now.

A giant rat!

FLICK!

She wore a
wig?

Much later...

Dannoura Found

After the defeat of the terrorist group calling itself the E.C.S., this group of super humanimals helped cleanup crew's clear and repair the damage caused during the battle.

Thanks goes to these Extinctioners for helping to keep Napaj safe.

Also, in related news, Prof. Dannoura was found.

Apparently, Prof. Dannoura was the victim of an attempt to steal his Andorozon technology. His partner and Sei Ryu Lab, owner Takemitsu SeiRyu, who has now gone missing himself, is wanted by authorities for questioning into the matter.

SeiRyu Wanted

That ees Incredible! Vat will 'appen now? Vill they come back?

Well, I don't know. They seem to lie low after an encounter, so they probably won't try here again.

Yes, but they have half of the Andorozon data. They could make artificial hybrids if they can figure out the rest.

I tried to put a worm that would attack the data when accessed, but I'm not sure if it'll work.

I've asked Micro to replace the other half of the data, however.

I've found having full access to my emotions a bit...overwhelming and embarrassing.

Really? Well okay, if you want me to.

Heh, I'm sure she'd love you to, reinstall the data.

Phenix, do you think we could maybe stay a little while longer? I'd love to be able to catch up with my friends. I haven't seen Ken-san and Satoru-san since we were cubs.

I don't mind at all. But, well, Warfare?

Well, I find it compromising that you allow your staff to know your secrets, Phenix. However, I do think an extended stay would be a good idea.

We need to do a little more investigation into this human matter before returning home. Them still being on planet could mean something big will happen soon.

Cool! I can show you guys the best place in town to get sushi.

Okay, its settled then. I'll give CeeCee and the sisters a call to let them know. we'll be staying a little longer.

Meanwhile, back at the Fela house.

And this is his room. We've... Hey! The door's locked.

Hey, Katherine. The door up here to my room is locked somehow.

Don't worry, CeeCee. I'll have it open in a sec. It's probably just jammed. Could you answer that phone for me?

Oh? Hmm, that's odd, 'cause normally they can only be locked from the inside.

You know, that's not safe for a sick patient.

Well, I don't remember ever locking that door

Okay Kat. Yes I know.

Something like this should never happen. What if the patient was in serious need when something like that happens?

When she opens that door I'll have to make an inspection of that room for anymore hazards.

Ms. Ferrotti, I assure you that this has never happened before. I'm very careful and would never do anything to endanger my sick mate! EVER.

Now if you'll excuse me for a moment, I have to take this call.

Hello?

Hmm. I don't get it. You can't even accidentally lock the door and then close it without being in the room.

Mom and Dad made sure of that after that time Catrina locked herself in the closet accidentally.

Oh well. No big deal. I'll just become intangible, walk through the door, and unlock it from the inside.

These powers do come in handy sometimes.

GASP! Oh my GOSH!
